ROSESROSESROSESROSESROSES

All our roses are California grown....heavy.....No. 1 grade. They are potted in papier mache' rose pots and started in cold frames. They are leafed out by May 1st to 15th and ready for delivery to our customers.

A colored picture tag is attached to each rose at no extra charge. All patented roses are in green colored pots and the non-patents in tan pots for easy identification.

Here are some suggestions on the care and handling of roses in paper mache' pots: They should be placed on a gravel surface or some other medium which allows air to reach the bottom of the pot.....in this manner, no rotting of the pot will occur.
